

objects abstraction data structures pdf

In software engineering and computer science, abstraction is: the process of removing physical, spatial, or temporal details or attributes in the study of objects or systems in order to more closely attend to other details of interest; it is also very similar in nature to the process of generalization;

Abstraction (computer science) - Wikipedia

Abstraction in its main sense is a conceptual process where general rules and concepts are derived from the usage and classification of specific examples, literal ("real" or "concrete") signifiers, first principles, or other methods.

Abstraction - Wikipedia

Some of the features of object oriented programming are:
• Emphasis is on data rather than procedure.
• Programs are divided into what are known as objects.
